

## Eco-Cellulose Face Mask - Firming & Hydrating (25ml)

*Suitable for all skin types.*

*Recommended use: once or twice a month.*

**100% natural; 98.55% certified organic**

### Description

This face mask is designed to provide effective firming and hydrating benefits through the revolutionary and patented mechanism of the all natural Eco-Cellulose sheet. The certified organic Aloe Vera gel essence will help strengthen connective tissue and tone facial muscles. This will leave your skin with a fresher, more radiant and youthful looking complexion.

### Key ingredients

The **Chamomile**, **Calendula** and **Echinacea** botanical extracts are proven from dermatological tests to help calm and improve skin health. The gel blend also contains a superior mix of essential oils (**Sweet Orange**, **Patchouli**, **Frankincense**) that are known to help cellular regeneration and therefore provide additional skin nourishment.

### Use

Unfold the mask and then carefully remove the non-woven inner layer. Place the mask on your face with the white non-woven outer layer on the outer side. Press into the face contours and then remove the white non-woven outer layer carefully leaving the cellulose layer. Position the cellulose mask middle clear layer and massage smoothly into the face contours. Leave for 30 to 40 minutes. Remove the cellulose mask and massage the face with any remaining certified organic gel essence.
